

K-LOVE is an important public service station that provides weather updates, important up-to-date news and service announcements. Our whole church youth group has started listening to K-LOVE. Our youth workers used to hear the youth listening to music with negative messages of hate and crime. Since K-LOVE has been able to provide us with a clear signal, our kids have started to clean up their music. Their attitudes seem to be a lot more positive when we see them out in public. We need K-LOVE to stay on the air to help our community. K-LOVE does exactly as they say they do - they encourage. Whatever kind of day you are having, there's some kind of music that they play that lifts your spirits. Please do not take K-LOVE away!
